

HIV HIV: Human Immuno Deficiency Virus AIDS: Acquired Immune Deficiency Syndrome **and AIDS**

MYTH:

***If you are homosexual,
you have AIDS.***

FACT:

***AIDS is NOT a gay
disease. As a disease
of behavior, it affects
people across the
spectrums of age, race,
class, sexual orientation
and gender. AIDS does
not discriminate.***

MYTH:

***I can't possibly
contract HIV infection.***

FACT:

***HIV is spread by
sharing infected blood
or blood products,
semen, vaginal fluids
or breast milk.***

***If you share these
infected fluids by any
means, you are at risk.***
