

Metal Ions and Metalloproteins Symposium

Symposium Chair : Dr. Fadi Bou-Abdallah

[Prof. Prem Ponka](#), (McGill University): *"Iron: our friend and foe"*.

[Prof. Al Crumbliss](#) (Duke University): *"Iron transport from man to microbe: Iron acquisition by a gram-negative pathogenic bacterium"*

[Prof. Ann M. Valentine](#), (Yale University): *"Nicastransferrin, a monolobal transferrin from the ascidian Ciona intestinalis"*

[Prof. Dean Wilcox](#): (Dartmouth College): *"Thermodynamics of metal-protein interactions"*

[Prof. Dan Kosman](#): (University of Buffalo): *"Multicopper ferroxidases: A workshop on copper coordination chemistry, electron transfer and metallophysiology"*

NERM2010. Symposium Title: Metal Ions and Metalloproteins”; June 2-5, 2010

From left to right: Drs. Dan Kosman, Dean Wilcox, Fadi Bou-Abdallah, Anne Valentine, Al Crumbliss and Prem Pomka
