

Homework 4

Due date: Wednesday, 1-30-08

Weight: 10 points.

Name:

Grade:

Please all of section 9-2. When I refer to a problem by saying, for example, 9.1.2, I mean chapter 9, section 1, problem 2 in our textbook. If you can fit the homework on this sheet, please do – it makes organization slightly easier for me.

For each of the following figures determine if it is (S) Simple curve (C) Closed curve (P) Polygon (CV) Convex (CN) Concave. (It can be more than one of them so list all that apply!)
